

CX TOUCH

AUTO EJECT SPECIALTY DRINK MACHINE

TOUCHLESS
SOLUTIONS

Enjoy delicious coffees, latte's, cappuccinos and more with the CX Touch. Blend soluble milk and chocolate with individual PODS of coffee and tea to create coffee house quality drinks. Simply scroll through the high resolution touch screen, select your drink, insert a POD and your drink is prepared in under a minute. No need to leave the workplace for great tasting coffee.

The Difference Is The Taste: Individual single portions of coffee and tea PODS provide an aromatic and enjoyable taste experience. Because PODS are brewed in a paper filter, all of the aroma and essential taste components are able to be extracted properly and enjoyed. Brighten up your work place with the aroma of freshly brewed coffee and enjoy the difference the CX Touch offers your employees and customers.

Brewing Responsibly: CX Touch's innovative use of 2 lb. bulk hoppers for milk and chocolate drastically cut down on waste without sacrificing drink quality. One 2 lb. bag of milk and 2 lb. bag of chocolate is the equivalent of approximately 75 milk and 50 individual chocolate capsules in other brewing systems. The end result is a great coffee experience while helping to protect the environment - one cup at a time.

DRINK OPTIONS

Freshly Brewed Coffee

Choose from a full menu of coffees and enjoy the flavor of coffee brewed one cup at a time

Hot Tea

Choose from a full menu of teas including black, green, white and herbal.

Cafe Latte

A robust shot of espresso, with a healthy covering of hot steamed milk.

Hot Chocolate

Delicious whipped hot chocolate.

Cappuccino

A robust shot of espresso and equal parts steamed and foamed milk.

Over Ice, Iced Coffee and Ice Tea

Bring a cup of ice and choose your favorite drink over ice.

Mochaccino

Coffee or espresso blended with whipped hot chocolate and milk.

Espresso

Choose a full flavored, concentrated "shot" of dark, robust coffee.

Cafe Mocha

Coffee or espresso blended with whipped hot chocolate.

Milk Shots

Choose from plain or chocolate. Add one shot to your specialty drink to make it your own recipe.

Unmatched Individuality

The CX Touch brewer now has the addition of QR technology to brew pods with reduced touch operation. The QR technology maintains the customizable features of size and strength using our own free web app. Reducing touch points helps reduce the spread germs. Retrofit kits will be available also for certain existing equipment in the field.

The CX Touch offers many choices of coffee, tea, specialty drinks in various sizes and strengths along with shots of milk and chocolate

Features:

- New QR Code Feature.
- High Resolution 1200x1920 touch screen.
- Custom Sleep Screen option.
- Over ice drinks.
- Stunning graphics.
- Ease of operation.
- 2 lb. bulk hoppers for milk and chocolate.
- Energy saving options.
- Optional pass-through waste bin.

firstchoiceservices.com

Place cup on drip tray.

Scan QR code with phone camera app.

Choose drink from menu and select drink size and strength.

After selecting "Next". A drink QR Code will pop up. Turn drink QR code to face machine's camera.

POD DRINKS: Door will open immediately upon scanning qr code. Insert your pod, rescan QR code and the door will close and brewing commences.

NON-POD BASED DRINKS: Machine will now begin brewing non-pod based drinks immediately.
