**Add Flavia® Chill to Your Creation 600  
or Creation 500 and Give Your Team the  
Variety They've Always Wanted**

Employees use different beverages to meet their needs throughout the day. While hot drinks provide for some needs, many employees have said cold drinks help them refresh, reinvigorate, and stay productive.<sup>1</sup> If you're only offering what's hot, you're only partially meeting the needs of your employees.

**The good news?** You don't have to choose, because the Flavia C600 or C500 with Chill brews both hot and cold beverages.
