

Chosen by Leading Healthcare Providers

Over 350 leading hospitals have embraced Keurig® K-Cup® pod coffee makers as a hygienic and flexible solution to fuel essential workers during COVID-19.

Brewing Confidence with Keurig

The most reliable and satisfying cup of coffee is one brewed on your own terms. Our single-serve technology allows for minimal contact during brewing.

Easy-to-clean touch-screens, buttons & handles

Non-porous surfaces means nothing can sink in or be absorbed

Frequently accessed parts are removable for easy cleaning

Commercial Grade — engineered for durability and reliability

Air-tight seal for freshness

Double-wall design ensures coffee, tea, or cocoa inside is completely protected from external factors

Advanced technology keeps water and coffee untouched & safe from start to finish of the brewing process

Keurig: The Solution Chosen by Nurses & Doctors

Nearly **1/3 of healthcare workers** would like more variety and higher quality coffee at work.¹ Your employees work hard. Give them the quality and variety they desire to stay fueled 24/7.

2.75x

Decision makers are **2.75x** more likely to consider Keurig as a sanitary option over drip coffee¹

**Reduce touch-points
and exposed coffee
with flexible single-serve
brewing solutions that
fit any space.**

Doctors' Lounges & Breakrooms

Nurses' Stations

Senior Living Facilities & Lobbies

**Keurig® coffee makers enable safe and hygienic brewing,
keeping employees on-site and fueled 24/7.**
